General Advice

➜ Make sure you understand why you are doing what you doing.

➜ Don't be afraid of experimenting

    ➜ Frame a clear question which your experiment will answer.

    ➜ Try to predict the result of the experiment before you actually do it.

➜ Sometimes it is better to start all over again

Support beyond RAS

➔ Remember we offered to review the technical part of your proposal. Make use of it.

➔ Facebook group, wiki etc... figure out 1-2 people in the group who will be curating this effort.

Misc.

➔ Feedback – Feedback form will shortly appear in your inboxes, preferably, do it today and send it to me.

➔ Collect your certificates before you leave, expected to be ready by lunch
